SHARE YOUR THOUGHTS 161
It seems like there are those who have all the answers and others who have only questions. And unless you’re lucky, it’s a rare thing to stumble across people with a healthy dose of both questions and answers.

I’m very lucky.

My brother Jim Poole is simply a creative genius. He’s a witty wordsmith with an uncanny sense of what’s what. Thanks for your astute observations and handing over all your great ideas.

My colleague Laura Allen is a talented mastermind. She’s a “walking thesaurus” with a heart of gold.
Thanks for sharing your wealth of wisdom and keen insights.

Thanks, Jim and Laura, for inspiring me to take this book to the next level and your willingness to go above and beyond time after time.

My mother, Barbara Poole, and friend Judy Keene supplied lots of suggestions and polished the manuscript. Thanks for your contributions and edits—they were all good ones.

And a special thanks to all my friends and family members who over the years have kindled these 1001 questions—and illuminated their answers.

The answer, my friend, is blowin’ in the wind.

The Power of Questions

Questions are great conversation starters. It seems everyone has a story to tell or an opinion to share. And to get it, you need only to ask. Good questions invite people to open up about themselves and divulge their thoughts and feelings on a wide variety of topics. They’re the secret behind getting acquainted with someone you have recently met or learning something completely new about someone you’ve known for years. If you learn to pose the right questions, you’ll gain a better understanding of who your friends are and what makes them tick.
Don’t you appreciate it when someone asks you sincere questions? It conveys an interest in your opinions and insights. It demonstrates a desire to know who you are and what you really think. And that means a lot. There is something powerful about questions that force you to think, look within yourself, examine your heart, and search for answers. And it’s in the process of responding to those questions that you often make discoveries about yourself—things you never even realized before.

Questions also function remarkably well in the context of discussion groups. They draw group participants into the dialogue—less outspoken individuals are coaxed out of their shells and more talkative types are reigned in to focus on the issue at hand. Asking great questions in a group setting is the quickest and easiest way to spark stimulating discussions.

1001 Questions

But even though most of us realize the importance of raising questions, asking good ones is sometimes another matter. They are not always that simple to think up. That’s where The Complete Book of Questions comes in! This book is one big compilation of questions—1001 questions you can use in just about any context to launch great conversations. And many of these questions are likely to trigger other questions
you may also wish to discuss. Think of this book as a tool to spark interaction—to know and understand others, and yourself, better.

All of the questions in this book have been divided into ten categories for easy reference. Some questions, of course, might readily fit into multiple categories, so this is just one way to sort them. The box below gives a short description of each category of questions:

Guidelines

Since this is a book full of questions, no answers are provided. That’s where you and your friends and family members step in! As you use these questions to interact with one another, remember there are no right or wrong answers. Don’t feel pressured to respond in any certain way—just be yourself and be true to who you are. Here are a few additional guidelines to keep in mind:

• Most of the questions are “open-ended” (seeking expanded responses), while others are “closed-ended” (calling for short, one-word answers). In either case, develop your answer as little or as much as you feel comfortable doing.

• In the rare case you find a question that is irrelevant or not something you wish to answer, simply skip it and pick another one.

• The first several categories of questions are the most nonthreatening and, therefore, the easiest to answer. These are the best ones to use with new acquaintances.

• The last few categories contain questions of a deeper nature, which may best be utilized in settings where you know the other participants fairly well and are ready to tackle issues of greater significance.
• The Spiritually Speaking category lists questions that address very basic spiritual issues, while the Extreme Spiritual Matters section includes questions that will stretch and challenge you on your personal spiritual journey.

Applications

There are probably as many ways to put this book to use as there are questions within it! So be creative. Experiment with a variety of methods to apply these questions in different contexts. To get you started, consider the following ideas:

• Whether you’re with one other individual or a whole group of people, use this book to spark conversations in different settings and occasions: social and holiday gatherings, road trips, meals, dates, discussion groups, family times, vacations, etc.

• Randomly select a number, read that question, and answer it. Take turns, inviting each person to pick a different number—or, if someone prefers, let him or her answer a question that was previously chosen.

• Limit the questions to be selected to one specific category—or two or three categories. Or open up the options to include each and every question in the book.
• Predetermine one particular question—or several of them—you’d like everyone in your group to answer.

• If you’re in a discussion group, look for relevant questions to use as icebreakers and to supplement your topic of discussion.

**Listen Well**

Finally, as important as good questions are, nothing compares to the significance of developing the skill of effectively *listening* to one another. Can you think of a time when a person turned to face you squarely and displayed a sincere desire to fully hear and understand you? Chances are, that kind of undivided attention made quite an impact on you. Even though it might be tempting to think instead about how you would respond to a given question, do your best to listen well enough to really *understand* each other.

As you explore these 1001 questions, make the most of the conversations that ensue. Share your responses openly and listen intently to one another. In so doing, you’ll express unselfish candor and respect, which will go a long way toward taking your relationships to a whole new level. Now that’s a gift you can treasure!
